**VIKINGSHRED** 

# Security You can Count On

---

All shredding companies are not created equal. Once you know what to look for, Viking Shred will be your shredding company of choice.

---

## State-Of-The-Art Mobile Shredding Trucks:

- Watch your documents being destroyed via one of our on-board shred cams mounted to each of our shredding trucks.
- One of only a handful of companies in California that are able to “dial down” the size of our shred particles on-site. You want ultra-security? We can make sure your documents are destroyed into pieces so small they are nearly dust. If a company cannot shred on-site, your data is not secure.
- Your trust and security is paramount to us. All our employees are given random drug, background, DOT, & alcohol tests.

- **We can shred hard drives on-site.** Most companies take your hard drives to a remote location for destruction. With Viking, your data won't leave your facility until it is destroyed.
- Viking shreds, bales, and ships directly to the paper mills without having to dump paper at third party recycle centers. Viking alone handles your documents, ensuring that you have one company accountable for the complete destruction of your data.

## Viking is Family Owned:

- In an era where we have seen large corporations fail to live up to their promises, you know that Viking is large enough to handle your needs and that we have a personal stake in our company's reputation. The complete destruction of your data is more than just a paycheck to us.
- Established in 2005, we have quickly become the largest privately held mobile shredding company in Northern California.

- We make it easy. Whether your job is large or small, you will always receive personal service with Viking.

## Complete Shredding Services

- One-time shredding jobs—no job is too small or too large.
- Flexible weekly service contracts from one bin to 1000's.
- All jobs treated with the same attention to security.
- Guaranteed Rapid Response Service throughout California.
- Viking shreds over 2500 tons of paper a year. All of this paper is baled in our West Sacramento facility and recycled.
- Viking currently diverts over 3000 tons of recyclables from landfills every year.
- Our entire fleet meets the new California diesel emissions standards.

One-time, Weekly or Monthly Shredding Services for:  
Private Business, Government, Educational and Residential Entities

Shredding Process

# Viking's Secure Shredding Process

Save time and money with Viking's recurring on-site shredding service. With a typical office shredder, it would take one of your employees 26 hours to shred the 300 pounds of paper we can collect with only one of our bins. These lost wages alone would make Viking's service the smart choice. Add to this our convenient secure collection bins, our efficient service, and our low price and it is clear that an efficient well run office includes Viking Shred.

## Collect...

Materials for destruction are collected at your office in secure bins.

## Retrieve...

Viking Shred employee retrieves materials for shredding at scheduled times and transports them to shredding truck in your parking lot.

## Load...

All materials are mechanically loaded into our state-of-the-art shredding trucks.

## Shred...

Materials are destroyed immediately on-site. You can watch shredding happen via our on-board shred cam.

## Certify...

At completion of shredding, you are issued a certificate of destruction.

## Deliver...

Shredded materials are transported to one of our secure baling facilities.

## Bale...

Material is gathered and baled.

## Recycle...

Bales are shipped directly to paper mills for recycling.
